1. Name the countries and establish what is the major religion for EACH one.
2. What is the religion that dominates India?
3. What category does India's religion fall into? (mono or poly)
4. What is Karma? Describe it in your own words.
5. What religious activity has been developed by the Hindus? (Westerns have made it into an exercise and relaxation method)
6. What does the "Transmigration of the Soul" mean? Think about it and describe your answer.
7. How do you think people can tie the religion with what social class you are in? Can you remember what the social classes are called in India?
8. How is the USA social class determination different from that of India?

Draw a pyramid/triangle on your paper. Separate the pyramid/triangle into 5 separate levels. This is now your social pyramid.

You will be given 5 different groups of people. You will need to determine where they go on the social pyramid. You will need to give a supporting statement of why you put them where you did.

Here are the groups in no particular order.

1. Artisans, farmers
2. Merchants
3. Untouchables
4. Ruler, warrior, landowner
5. Priest
