

## Globalization

1. What does the term globalization mean to you?
2. Create a chart on your paper like the one shown below. Chart the different locations of the products you were to find for homework.

Location	North America	Europe	Africa	Asia	South America	China	USA
Number							

3. Did you find anything interesting about your chart?
4. Is there an area or country that comes up more than one time? If so, why do you think that is?
5. What are some events/things that have made globalization spread quicker? Explain.

You are a owner of a professional sports team ( MLB, NBA, NFL, MLS, WNBA, NHL). Your responsibility to the organization is to win games, correct?

Here's the situation:

Since your team is based in the US (Yes, there are teams outside of the US that play in those leagues, but for this situation your location is within the US)

Your team is need of a really good player to help win a championship. You have your eyes on two players: one from the USA and the other not from the USA. The player from the USA wants the biggest contract in history while the other player will play for much less.

What is your decision? Explain your rationale behind your decision.

What will the fans think?

What could be the positives of this deal in terms of the business standpoint?

What could be the negatives of this deal in terms of the business standpoint?
